Profile

Game Designer & Producer with 3 years of experience developing mobile and PC games. Led multidisciplinary teams and owned features end-to-end, including roadmap planning, delivery, and live iteration. Highly KPI-driven, with hands-on experience optimizing Playtime, Rewarded Video engagement, Retention (D1 & D7) and CPI through rapid prototyping and iterative, player-focused development aligned with market trends.

Employment

Producer & Game Designer, Clover Bite, Haifa

2024 — PRESENT

Hybrid Casual Mobile games as contractor - "Super Sonic" & "Hoppa Play" (Crazy Labs)

- Worked on **8 published *Hybrid-Casual* games** — 5 with Supersonic and 3 with Hoppa Play — while collaborating with publishing managers and operating within publisher-facing production pipelines.
- Acted as the central coordination point between two studios, leading cross-disciplinary teams across both remote and on-site environments, and ensuring alignment on scope, quality, and delivery.
- Regularly presented research findings and discussed game mechanics with the team, facilitating data-driven decisions in game design and development.
- Led the design and delivery via structured roadmap planning, exceeding key performance benchmarks for player retention and engagement
- Designed and iterated on features rapidly, levels and balance focusing on improving D1 & D7 retention, increasing overall playtime and player experience.
- Designed retention and monetization features that support long-term engagement.
- Collaborated on and designed low-CPI user acquisition creatives, using data-driven visual hooks aligned with core gameplay and product KPIs.

Extra-curricular activities

"Chef-Hero", Tiltan. Haifa

2023—2024

Kitchen-Themed Mobile 2D Action Platformer Looter-Shooter With Auto Firing.

Game Designer and Producer
